COURT DECISION ALLOWS LIGHT BEER

CONTINUED FROM PAGE ONE

By permission of the court of appeals, which were to have been heard next Monday, in order to permit appeals from Kentucky and Massachusetts, involving the amendments, to be heard at the same time.

Assistant Attorney General Friesen indicated tonight that the arguments might be heard March 15.

In asking permission to file the brief Mr. Hughes told the court that officials of 15 of the 21 states had communicated with him directly relative to opposing Rhode Island's suit, while the governors of the other two, Nevada and Kansas, had given him authority to include them.

"The state of Rhode Island," Mr. Hughes said in his brief, "does not bring its bill of complaint to enforce any property right or any interest of the state which can be regarded as the proper subject of judicial consideration."

If this court may consider the question whether an amendment not expressly prohibited by the constitution itself can validly be adopted, it is submitted that there is nothing in the nature of the 18th (prohibition) amendment which expresses it to the charge of invalidity.

The 18th amendment "is a direct invasion of jurisdiction and powers of the state and the rights of its people," the state of Rhode Island declared in its brief.

The brief, which was filed by Attorney General Herbert A. Rice of Rhode Island, asserts that the government's view that the amendment is "unassailable," can "only lead to anarchy and oppression." It contends that it is the duty of the court to keep congress in its amendments to the constitution "within the scope and jurisdiction of federal authority," and "maintain that the line of division between federal and state powers" which has "for so many years insured the harmonious operation of our dual system of government—organized and established as 'perpetual'."

"The theory of the government 'is so subversive of fundamental principles that its enforcement would bring about a constitutional revolution,'" continued the brief.
